

Ref. Code: AP018

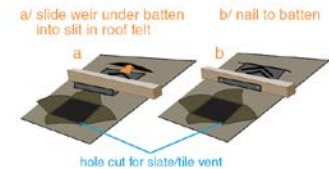

Date: April 2016

Felt Weir

Product Description

An accessory for Corovent tile vents. The FW1 Felt Weir protects the roofline or cowl vent from condensation and rainwater running down the felt. The weir up-stand sits above the batten immediately above the vent, and the chevrons deflect the water away to each side.

- Designed for use with Corovent tile vents
- One FW1 felt weir supplied with each Corovent tile vent
